

Make conferences easy and efficient by synchronizing viewing slide! A new feature of NanoZoomer distribution software.

Conference software as an option of NDP.serve

NDP.conference

NDP.conference, U11489, is optional software to enhance the NDP.serve, U10073-01, slide distribution and management software for NanoZoomer 2.0 series. It makes conferences sharing slides among clients easy and efficient by synchronizing viewing slides.

Feature

1

Synchronized viewing slides among clients

Viewing slides on every display monitors of participants can be synchronized with the display of the presenter. Additionally it allows anyone participated to be a presenter to take control of slide viewing.

Each people review different slides

Switch the mode to synchronize to the presenter.

Synchronous display with presenter and follow the presentation

Feature

2

Chat function

NDP.conference has chat feature. Chat, additional to slide viewing, will be useful for better communication each other.

Chat communication and slide viewing simultaneously

Advantages

Sharing the slide information each other with synchronized slide viewing and switching the presenter

Synchronized slide viewing helps to conduct web based slide conference efficiently and accurately. Additionally, multiple clients are possible to exchange their opinions by switching the presenter and using the chat function.

Efficient pathology education environment with synchronous slide viewing display

Slide viewing of teacher is shared with large number of students to follow the lecture. For example, pathology students can learn the process of observation following the procedure of teacher.

NanoZoomer2.0-HT

NanoZoomer2.0-RS

*** NDP.serve ver.2.1 or later software is necessary to use the NDP.conference.**
